PROFESSIONAL SUMMARY

Information Technology graduate with a strong analytical mindset and experience in system implementation, web development, and quality assurance. Skilled in designing, developing, testing, and maintaining software applications while applying structured problem-solving and best coding practices. Experienced in translating business requirements into clean, efficient, and well-structured solutions supported by clear technical documentation. A fast learner with strong attention to detail, adaptability, and a commitment to continuous improvement, eager to contribute to the development of scalable and high-quality software systems.

EXPERIENCE

Intern at LBC Express Inc.

December 2025 – April 2026

- Developed Power BI measures using weighted comparisons and normalization techniques to reshaped raw Excel data into meaningful visualizations, enabling the marketing team to interpret trends and insights through clearer and more effective data storytelling.
 - Conducted manual testing for LBC Express mobile application revamp and website feature enhancements, documenting findings through Excel, validated fixes, and collaborated with teams to help ensure application quality and a seamless user experience.
-

CERTIFICATIONS

- Certiport IT Specialist - Cybersecurity: [Certiport Badge](#)
 - Certiport IT Specialist - Databases: [Certiport Badge](#)
-

PROJECTS

Arpeps (Side Project)

July 2026 – Present

- Developed a full-stack web application designed to reduce paper waste in printing copies of research papers for review in an academic environment by leveraging AI in analyzing academic papers. Built with NextJs, OpenRouter, and Supabase to digitalize and improve research paper analysis.

Digital Competitors Analysis Dashboard (Internship)

December 2025 – January 2026

- Developed a competitor analysis dashboard that evaluated social media performance across multiple platforms and applied a custom ranking formula, enabling the research team to identify weaknesses in the company's digital presence and support strategic marketing decisions.

Editorially (Capstone Project)

January 2025 – October 2025

- Developed a web-based editorial and content management platform for National University - Dasmariñas’s student publication, streamlining editorial workflows by replacing fragmented processes, improving collaboration, and providing a reader interface with search and sorting capabilities to enhance article discoverability and preserve published content beyond social media platforms.
-

SKILLS

- **Tools:** OpenAI, Gemini, Claude, Postman
 - **Programming Languages:** JavaScript, Typescript, SQL, PHP, React.js, Next.js, HTML, Tailwind CSS
 - **Database:** MySQL, NoSQL, Supabase
 - **Version Control:** Github
 - REST API Integration
 - Debugging & Troubleshooting
 - Software Testing
 - Problem Solving & Analytical Thinking
-

EDUCATION

National University - Dasmariñas | Dasmariñas, Cavite

2022 - 2026

Bachelor of Science in Information Technology with Specialization in Mobile and Web Application
